

On the Road to SAP S/4HANA

Keep labeling in the fast lane! No matter where you are on your SAP journey—ECC, Business Suite on HANA, S/4HANA—you'll want to optimize supply chain labeling with a powerful, enterprise-class solution that truly grows with you.

Not ready for S/4HANA? You're not alone. In a recent survey of 280 SAP users on their preparedness for S/4HANA, we discovered some surprising results.

73%

Were not aware that SAP will no longer support its Business Suite ERP in 2025.

67%

Aren't sure when they are planning to move to S/4HANA.

57%

Use SmartForms or SAPscript for labeling in SAP.

69%

Don't know their deployment strategy with S/4HANA.

76%

Were not aware that SAP won't support the creation of new forms using SmartForms or SAPscript in S/4HANA in the Cloud.

34%

Cited "effort needed" (e.g., man hours) as a primary concern with their migration to S/4HANA.

39%

Cited "disruption to business" as a primary concern with their migration to S/4HANA.

65%

Realize the importance of evaluating labeling as part of their migration to S/4HANA.

Integrate Labeling in SAP® and Jumpstart Your Journey to the Cloud

The good news is that Loftware works with your current SAP landscape to improve your labeling performance and reduce costs. And, our solutions are designed to easily integrate barcode labeling and RFID with S/4HANA supporting intelligent sustainable enterprise.

Loftware offers a "best of breed" alternative to Smart Forms, SAPscript or WWI for designing and updating barcode labels. So, when you are ready to move to S/4HANA, we will continue driving your labeling seamlessly while you minimize costs, improve agility, reduce errors, and increase print speeds.
